Heavy Duty Temporary Access Mat

The fast and safe way forward

Heavy Duty Temporary Access Mats

Supporting loads up to 80 tons, this mat is the ultimate, fast to install temporary access and ground protection mat for moving equipment and personnel over soft or sensitive ground.

Amazingly Tough & Flexible

Tough high density polyethylene (HDPE), the mat weighs only 35kg/77lbs and incorporates hand holds that make moving and installation easy.

Anti-Slip Surface

The engineered, unique chevron traction® surface delivers ultimate grip and dispels mud, dirt and snow when vehicles travel over the mats. The chevron nub design also reduces sideways movement and slippage and delivers optimal forward traction.

Connection Options

Multiple connection options are available to suit various applications.

- Fast and easy to install
- Unique chevron traction® surface
- Fast temporary access and working areas
- Low transport and handling costs
- Avoid property and environmental damage
- Avoid health and safety issues
- Reflective markings for night safety (optional extra)
- Multiple connection options for different terrain and equipment

Heavy Duty Temporary Access Mat

The fast and safe way forward

The mat incorporates the industry's premium non-slip, non-trip surface and reflective markings for night safety (optional extra), and is ideal for many applications.

The mat provides temporary access and ground protection over very sensitive areas such as right of ways, construction/work zones, sports fields, parks, and other applications requiring ground protection. Acceptable to track machines.

- Fast and easy to install temporary access and ground protection mat
- Temporary access, working areas and trackways
- Avoid health and safety issues
- Avoid property and environmental damage
- Prevent bogged down vehicles
- Save money and time in reinstating ground
- Project a professional image and help your customers
