

Industry-Superior Custom Tree Pruners

LINEMAN'S TESTING LABORATORIES of Canada *custom-manufactures fully compliant pruning sticks using only top-of-the-line, brand-name quality parts!*

DURABILITY and RELIABILITY

- All pole stock is equipped with insulated foam
- Finest quality MARVIN saw blade #S20 and #PH16 Corona bull head with rope
- Rope insulators constructed of 3/8" epoxy rod and stainless steel for corrosion resistance

LTL CUSTOM FEATURES

- All pole ends are sealed with epoxy for added user protection and reduced moisture contamination
- 28" standard pole length used for extra safety (industry standard min length 12")
- Pole stock is available in custom lengths to suit your specific application
- **LTL custom carrying bags enclose all equipment preventing damage to tools -- deep enough to prevent rips and tears**

COMPLIANCE

Pole stock meets all requirements per:

- OSHA 1926-951d
- ASTM F711 and ASTM F1826
